

2021 Industry Lecture Series

In 2021, the Australian Society of Rheology is presenting a national series of industry lectures, which is open to anyone interested in the flow and deformation of matter.

Calendar details

Name	Organisation	Date & Time (Melbourne Time)	Lecture title	Industrial area of interest
Gordon McPhail	Water, Waste and Land	Tue, 2 Feb 2021 3-4pm	Estimation of the rheology of liquefied bauxite refinery residue for application in dam break analysis	Tailings geotechnical assessment and tailings storage breach modelling
Graeme Gillies	Fonterra	Tue, 2 Mar 2021 3-4pm	A constitutive model for predicting the rheological behaviour of cheese	Cheese rheology and processing
Dr Catherine Rees	Melbourne Water	Tue, 4 May 2021 3-4pm	To be announced	Waste water treatment
Daniel Knapik	Dulux	Tue, 1 Jun 2021 3-4pm	To be announced	Paint formulation
Nils Steward	Weir Minerals	Tue, 6 Jul 2021 3-4pm	Rheometry versus pipe loop testing – Looking back at 6 years of test work	Mineral slurry processing and pumping
Phil Threlfall-Holmes	Consultant	Tue, 3 Aug 2021 Time TBC	To be announced	Extensional rheology and sprays
